

THE PEERAGE SAFES

VR COUNTESS VR MARQUIS

Highly Customisable Access Combination

The choices for customisation is endless. Unlock your safe with any or all of the combinations you trust- fingerprint, passcode or key.

Memorised
20 Fingerprints

Smart Security Pin System
3-8 Digits

Storm Wind Thread Lock

Reinforced with exclusive, German-patented whirlwind lock, providing near-indestructible resistance against pry attacks.

Custom-Made Square Bolt

Much more advanced than the traditional cylinder bolt, the square bolt's force surface is greater- effectively improving tamper resistance.

• VR Countess (2) • VR Marquis (3)

Zinc Alloy Handle, Velvet Interior

The polished zinc alloy handle, stainless steel mirror panel, along with the luxurious velvet interior of the finest grade, finished with a delicate piano painting approach, gives the safe an elegant, exclusive appearance.

Integral Reinforce

Prying open is virtually impossible with the all-inclusive, thickening hinges installed between the safe's door and body. The thick 6mm door and 4mm body are constructed using German plasma machine, for laser-precision cut to minimise welding, making it highly resistant to mechanical tools attack.

Protecting Valuables, Protecting Environment

The safe's interiors are designed with the environmental-friendly camphor wood, covered with flannelette. Fragrant, anti-mold and anti-moth, camphor is an ideal material for protecting precious items.
